Subject: Mercer County Safety Form

Mary,

Leona and I appreciate your work in gathering the Mercer Counties Official policy documentation that describes the intent, purpose and enforcement protocols of the so called "New Form".

As you should be able to tell from our questions, we are not concerned about the form itself, but rather the intent and protocols to manage and enforce compliance with the many clubs, meetup groups and Friends / Families that use Roebling Park as a Paddling / Hiking destination.

Since Leona and I were presented with this requirement at the end of our very successful cleanup at Roebling park by Kelly who was only able to inform us about the "Form", we were not clear how it applies to the Sierra Club, Pineypaddlers, or just a group of friends paddling to Roebling park on a nice tide and weather day.

The following include some of the questions that the County policy documentation must include in their formal public response;

I am especially concerned about the words "Safety" provided by the County with regard to water activities from Bordentown Beach to Watson Woods.

Please keep me up to date on your progress, and remember that this request is not just for George & Leona, but for the Paddling / Hiking community.

Regards,

George L Fluck,

Special Events Coordinator

National Canoe Safety Patrol

George, I have a meeting with Jenn on May 3rd, and hope to address your concerns then.

I'll keep you updated. Mary
